### To Barton, Vt.

When nature designed fair creation, Providing for every want, Her best and her sweetest and fairest She gave to the state of Vermont And Barton was certainly Eden, Where dwelt Mr. Adam of old, With Eve, that fair creature In form and in feature, The best of mortality's mould. Still, Barton resembles fair Eden As no other spot on the earth, And Abels and Cains here abiding Pronounce it the place of their birth; And Eves are entrancing and many And beautiful, witty and gay, And Adams we know In pursuit of them go As old Pop of an earlier day.

Ye people of Barton, be grateful, For happy indeed is your fate, Ye live in the happiest country And in the most beautiful state; And in the most beautiful portion Of prosperous, lovely Vermont, With beautiful lasses And flowers and grasses, For God's sake what do you want? ## TWO CRIMINALS ESCAPE

Desperate Men Break out of Asylum. Will Take Life to Accomplish Purpose Says Dr. Grout.

John Keenan and Leroy Kent, two desperate criminals, escaped from the criminal ward of the state hospital for the insane at Waterbury early Saturday morning and are at large with no clue as to their whereabouts. It is believed neither man is insane.

Kent is about 32 years old and is 5 feet 4 inches in height. He has a long criminal record. He has been in the state prison twice. He escaped from Windham county jail once, jumped once from the window of a moving train to escape from an officer and cut his head severely, leaving scar and depression in his forehead, and he escaped from the state hospital at Waterbury in August, 1905. He was sentenced to the state prison for assault with intent to kill, and was transferred to the state hospital.

Keenan is an elderly man, about 5 feet 6 inches in height. He has been in the hospital off and on for years. He has a wooden leg and it is believed he is shamming insanity. He was arrested years ago in Windham county in connection with a man's death.

Supt. D. D. Grout has notified Gov. F. D. Proctor and the hospital trustees that greater security should be provided for guarding the criminal insane ward.

LATER—Keenan has been captured, but Kemp, the most desperate and younger man of the two, is still at large.

Harlow Hopkins, who has been working for Murray & Royston, has finished work there and M. F. Sheltz is taking his place in the lively stable.

A new iron railing three feet high is being erected in front of the Congregational church, on the ends of the platform and steps, to insure safety.

"Barton needs one thing more," said a visitor here last week. "What is that?" the writer asked. "A street sprinkler," was the reply. Have you ever thought so?

The following letters remain unopened at the post office July 15. Please say advertised when calling for these letters: Mrs. E. C. Everett, Wm. King, F. W. Tenney.

Mrs. A. S. Mathewson went yesterday to visit friends in St. Johnsbury. From this place she will go to the summer home of her son, C. F. Mathewson, near Concord, N. H.

The amateur singing and bone playing contest at the shows last week, though few attended, was said to be a good entertainment. R. R. Richards won the silver cup as the best performer.

George Phillips and daughter Flossie of Springfield, Mass., Mr. and Mrs. Harley Chappel of West Burke and Miss Maude Macomber of Craftsbury were the guests of Mr. and Mrs. H. V. Drown recently.

Mrs. J. C. Orne of Brownington Center was the guest of Mr. and Mrs. D. I. Grapes last week, and on her return home Master Forrest Grapes accompanied his grandmother for a visit of a couple of weeks.

Mrs. E. W. Barron and Mrs. L. M. Hubbard will entertain the ladies' society Wednesday, July 22, at Mrs. Barron's cottage in Crystal Lake Grove. Boats will be ready at 2:30 to carry all who wish to go over.

School in the May pond district closed July 2. The teacher treated the scholars to ice cream and cake. Those having no absent or tardy marks were Joseph Paquette, Ernest and Perley Rock. Johnny Valley and Nelson Damon were each absent one day.

All interested in a singing convention being held in this village in the near future are requested to meet in Seaver's opera hall Friday evening at 7:30 p. m. sharp. It is understood that C. S. Conant of Concord, N. H., can be secured to lead a convention, and his leadership would insure success.

The trustees are putting in a four inch water pipe from the main pipe on Water street to the schoolhouse basement. This to take the place of the three-fourths inch pipe which now supplies water for the building, the small pipe being considered inadequate for the needs of the present building.

Many people have noticed a length of stovepipe hanging by a wire from the Bilodeau shop chimney. It has a spark catcher on it which makes that end airy while the other end is open. Last spring a couple of doves made

### Forest Fires.

Forest fires are doing a large amount of damage in the state. Large fires are reported near Groton pond and have already burned over about 2000 acres of timber land, and the fire is traveling toward another valuable tract. Another fire is reported in Berkshire and still another near St. Albans. Small fires are reported in this county but nothing yet of great magnitude. The showers have partially checked the fires and it is hoped they will soon be checked. Immense fires are reported in Maine, New Hampshire and New York.

### Late State Notes.

Farmers near St. Albans are having their stock vaccinated against tuberculosis.

Austin Ward of Bethel died Monday from wounds in his throat, self inflicted with a knife the previous Thursday while in a fit of despondency.

J. M. Montgomery of Randolph, a well-to-do and much respected citizen, was found dead by his wife Monday morning in the shed, where he had hung himself.

The Vermont State Press association is invited to meet at Proctor, the guests of Gov. Proctor July 23. They will visit the Proctor sanatorium and the marble quarries.

The state treasurer has compiled the biennial statement for the term ending July 1 and the result shows a surplus of \$113,128.06 after deducting the receipts from the expenses of the state.

John Shelley and John Edwards were arrested yesterday morning for breaking into a feed store in Fair Haven. The men are desperate characters, having been in the house of correction, and had burglar's tools on them.

a nest in it and have hatched their young there, and the neighbors have washed them with a good deal of interest.

Mrs. Norman Smith is spending a week with relatives in Newport. Mrs. Smith has been a resident here 15 years, and has spent only two nights away from her home. She has visited Newport once, 15 years ago, at the time her sister died, and this is her second visit with relatives at that place.

People will have the satisfaction of knowing they are getting the exact weight on either of the hay scales in this village. A new set of Fairbanks scales has been installed for E. W. Barron, and the D. I. Grapes scales have recently been repaired and sealed by the county authorities. On a 50,015 lbs. test the scales varied only 10 pounds.

Dr. Nichols has purchased a Rambler car of the G. H. Davis Co., and George is in town with another right from Boston. This car is a four cylinder and is a dandy. They are selling a number of cars and from reports from Newport, Lyndonville and St. Johnsbury George is opening the eyes of would be purchasers by his demonstrations of the machine in those towns.

The Barron Wedgewood Horseshoe Co., are having many orders for their shoe and it is a success wherever it has been tried. Mr. Noonan who has been looking for a favorable place for the manufacture of the shoe has at last found a party at St. Johnsbury who can drop forge the shoe and has made final arrangements to have the shoes turned out there, but will continue the business office here.

Summer visitors are more numerous this season than far than at any time previous. Without exception they speak very highly of the town, the lake, the beautiful drives and charming scenery hereabouts. Another thing often mentioned is the neat streets, the well kept lawns, freshly painted buildings and the comfortable and prosperous look generally about the village.

CARD.—We, the friends of the departed, desire through the Monitor to express our most sincere thanks to the many friends and relatives who so kindly aided us in the sudden death and burial of our beloved husband, father and son, and also to the singers, the Woodmen and those who contributed flowers.

Mrs. G. H. Rollins and Children, Mr. and Mrs. Rollins.

Barton should be well pleased with its water supply in this dry time. While water users in most of the towns about here and in many places throughout the state are being urged and in some instances forced to curtail the use of water, Barton water customers are using the hose freely, and the supply of water is plenty with no sign of shortage as yet. This does not mean that the water should be wasted here.

The sale of the Woodman lots occurred yesterday as advertised by the administrator. The home place, the lot on the west side of Main street, was bid off by F. H. Pillsbury for \$1000 and the lot opposite between Dr. Prime's and E. N. Randall's was bid off by Dr. Prime at \$450. Mr. Pillsbury says he will soon have his lot looking different, for which we all say "Thanks!" The three acre piece off High street was sold to E. E. Flanders for \$410.

## BARTON BASE BALL NOTES

Off to Woodstock Tomorrow Great Enthusiasm and Great Games.

For the benefit of our enthusiasts, we want to say that our record, while not good, is very far from being bad this season. We have played nine hard games of ball, winning five of them and losing the four by a margin of one score each; we have 54 runs to our opponents' 18 thus far this season and our per cent on games is 555, as good as Chicago in the American League and better than Cincinnati in the National. This week will prove conclusively whether we have a showing or not.

The Barton baseball team has certainly had a strenuous week the past week, and leave to-day for another three hard games, playing Ludlow on the 17th and Woodstock the 18th and 19th. We don't believe very much in luck but if there is any such thing it certainly has deserted the Barton team this season. We know that we have played good ball this past week and yet we have lost two out of three of the games. The first game with Ludlow was another exhibition of baseball which you seldom see in the big leagues, let alone country towns, and the boys certainly did themselves credit, however a wonderful one hand catch by Ludlow's second baseman ended the game in the ninth by a score of 2 to 1 in Ludlow's favor. In the second game the fellows got together and went in for a victory, everybody hit the ball and not only hit once but kept everlastingly at it; there was life from the start, and the boys tallied 16 scores, while "Bish" cut the corners in such a way that Ludlow failed to get only one man as far as third. Saturday afternoon playing two games as above we went after the game with the Frontiers in their pasture, well, we did.

The ruling going into effect July 1, requiring every separate article in a freight shipment to be plainly marked to the consignee is making some trouble for certain shippers. The Barton Tub factory is experiencing as much bother as any local shipper. For example a carload of tubs shipped to Lyndonville must bear the name and address of the consignee on every tub. In shipping several thousand tubs to several different parties the same day it necessitates some expense and the expenditure of a considerable amount of time.

It is understood that Henry Harding is going into the millinery and ladies' furnishings business. At least spectators say that upon opening his trunk after returning from Newport with his horse the Fourth, instead of finding his horseblankets and other trappings, he found a first beautiful merry widow hat, and upon taking out the tray, behold other ladies' wearing apparel. About this time he decided he had by mistake taken the wrong trunk from the depot and exchanged it for his own, lest some fair maiden upon opening what she supposed to be her trunk find nothing but horse blankets, bandage rags, liniment, etc. Ask Henry about it.

In Caledonia county court Tanner was sentenced to hard labor at the state's prison at Windsor for a term of not less than three nor more than five years. Last March he was arrested at West Danville for breaking into the railroad station at Danville and taking numerous articles, chiefly clothing. Sheriff Winch took Tanner as far as McIndoes, planning to go with him to Windsor. By means of a case knife, which he must have procured at St. Johnsbury, he loosened the bolt that held one of the bars at his window, and with his sheet made a rope by which he descended to the ground 40 feet below. He is about 30 years old, five feet, 10 inches high and weighs about 165 pounds, and has a sandy mustache.
